WORK ZONE VISOR ORGANIZER & SAFETY CHECKLIST

Work Zone organization & safety at your finger tips.

ATSSA's Work Zone Visor Organizer & Safety Checklist with adjustable straps fits securely on all work vehicle visors. The durable visor has five compartments to hold information workers need to be safe and efficient. As an added bonus, located in one of the compartments is ATSSA's Work Zone Safety Checklist. This removable checklist highlights the top ten items workers should review to increase the safety of any work zone.

Increased organization + easy access to pertinent information = Safer Work Zones.

WORK ZONE CLIPBOARD

1/2 PRICE FOR INVENTORY CLEARANCE!

Letter and legal sizes available!

This two-sided clipboard is the answer to work zone organization. Use the front side with the clip for documentation and organizing notes. Flip it over and find a handy reference guide full of useful Temporary Traffic Control information such as taper lengths, multiple tapers, devices to use, arrow panel modes and when to use, what to do in case of a crash, flagging operations, warning light usage, sign spacing and much more! (Buffer spacing on Taper Length table does not reflect 2003 MUTCD)

GUARDRAIL INSPECTION CHECKLIST

Developed and tested by Guardrail Inspectors in the field, this handy simple to use checklist provides an organized way to document all inspections. The checklist includes critical and pertinent information such as: Location, Project #, Weather Conditions, Traffic Control, Guardrail Specifics, Data Collection, Exceptions/ Deficiencies and additional space for general notes. The 8" x 11 5/8" manila matchbook style wraparound cover houses the forms made up of 2 carbonless papers for dual copies.

This checklist would prove invaluable if reference is required due to litigation.
